PC case MIDI Tower

—LOGIC J23 PRO

—LOGIC J23 PRO

HOME & OFFICE

Logic Concept J23 Pro is a refreshed version of a Midi Tower PC case, designed for efficient office and home setups. It supports ATX motherboards, combining a classic design with solutions required by continuously evolving technology and safety standards.

BETTER COOLING SOLUTIONS

The front panel of the case features partial perforation, ensuring a constant flow of cool air into the interior of the computer. In the Pro version, a **high-performance 120 mm PWM fan is installed at the rear of the case**, automatically adjusting its speed to the temperature of the components.

—LOGIC J23 PRO

AIRFLOW

READY FOR MORE FANS

—LOGIC J23 PRO

The design allows for the installation of two additional 120 mm fans on the front panel.

—LOGIC J23 PRO

PSU MOUNTING PLACE

The classic top-mounted power supply position helps expel warm air from inside the case to the outside.

Dual Protection for Your Equipment

Kensington Lock

A dedicated slot that allows the case to be secured with a steel cable, protecting the entire computer against theft.

Padlock loop

A physical side panel lock that prevents unauthorized access to the components inside the case.

—LOGIC J23 PRO

Front I/O panel with USB-C

For maximum comfort and fast data transfer, the front panel has been equipped with the latest connectivity standards.

Available ports include:

1 x USB-C: a modern port for fast data transfer and connecting the latest accessories.

2 x USB 3.0: ensuring rapid communication with external storage devices.

1 x USB 2.0: ideal for connecting a mouse or keyboard.

Audio jacks: 3.5 mm headphone and microphone inputs for convenient online communication.

—LOGIC J23 PRO

Home & Office

The Logic J23 PRO case is an excellent choice for both office setups and home workstations.

5,25" DRIVE BAY

The case design is highly practical, making it suitable for any office environment. The ability to install a CD/DVD drive or a card reader in the 5.25" bay, combined with its compact size, means this case has everything needed to build a reliable office workstation.

5 REASONS WHY IT'S WORTH HAVING

PRACTICAL

USB-C port and 5.25" drive bay.

FAN

1 x 120 mm fan pre-installed at the rear of the case as standard.

AIRFLOW

Practical solutions with optimal airflow.

SECURITY

Kensington lock and padlock loop.

MIDI ATX

Optimal space for components.

FEATURES

Optimal airflow.

**1 x 120 mm fan included
as standard.**

Padlock loop.

MIDI ATX.

5,25" drive bay.

Kensigton Lock.

**The option to install two 120
mm fans on the front of the
case.**

**1 x USB-C port on the front
panel of the case.**

**2 x USB 3.0 ports on the
front panel of the case.**

**1 x USB 2.0 port on the front
panel of the case.**

—LOGIC J23 PRO

4 x USB ports (including 1 x USB-C, 2 x USB 3.0, and 1 x USB 2.0)

- 1 x microphone port
- 1 x headphone port
- 1 x HD audio port

Fan mounting locations: front 2x 120 mm, rear 120 mm or 80 mm (1 x 120 mm PWM fan pre-installed at the rear as standard)

• Drive bays:

external 1 x 5.25"

internal 1 x 3.5" and 1 x 2.5" SSD

• 7 x expansion slots

• ATX power supply installation: top-mounted (max. length 200 mm)

Dimensions: 412 x 363 x 207 mm (H x D x W)

Motherboard size: ATX

Graphics card support: up to 290 mm

Maximum CPU cooler height: 165 mm

Available colors: black
