

## LOGIC WIRELESS MOUSE LM-31W BK

Logic Concept presents the LM-31W WIRELESS OPTICAL MOUSE

Good optics and 1200 DPI sensor ensure correct tracking of movements. The mouse is great even on bright surfaces. Profiled shape and perforated sides improve ergonomics, making it easier to control the cursor. The carefully selected size of the mouse guarantees comfortable work for most users.

The use of a rubberized surface makes the grip of the mouse extremely secure and the use of it is a pleasure. Thanks to the wireless connection the LM-31W can be easily connected in any environment without cables.
